## OUR VISION

TnCIS is committing to a three-year plan to align our education abroad programs and practices with sustainable development goals. Through this plan, our continued efforts to provide an international dimension to higher education in Tennessee will strive to model and teach global respect that enriches the planet as well.

## FOCUS AREAS

1

### TNCIS STAFF

Identify opportunities for sustainable development to enhance staff skills and improve professional work environment.

2

### OPERATIONS

Audit international education operational practices for opportunities to align with sustainable development and communicate improvements via the TnCIS website, social media, and user portals.

3

### EDUCATION ABROAD PROGRAMS

Enhance student programming using sustainable development as a guide for academic planning, faculty training, student activities, and orientations.

4

### PROFESSIONAL DEVELOPMENT & CULTURAL EVENTS

Prepare education abroad professionals to understand and utilize sustainable development and offer cultural events that support it.
